1) substance-/ preparation and company name

Chemical name/	SE2 WARM
Trade name:	
Application/use:	Photographic developer
Company name:	Wolfgang Moersch Photochemie, Am Heideberg 48
	D 50354 Hürth
Telephone:	++49 22 33 943137

2) Hazards identification

Xn harmful MAY BE HARMFUL IF ABSORBED THROUGH SKIN, OR SWALLOWED CAUSES SKIN AND EYE IRRITATION MAY CAUSE ALLERGIC SKIN REACTION

3) composition/details on components

This product is a preparation according to the law for chemicals. **Description:**

Aqueous solution containing inorganic and organic substances

Composition/informat Name hydroquinone	tion about the Weight % 2-6	•	e EC number no. 204-617-8	Danger symbol;Danger notes Xn, N; R 22-40-41-43 50
diethylene glycol	0,5	111-46-6	203-872-2	
potassium carbonate	10-15	584-08-7	209-529-3	Xn R-22, 36
potassium bromide	0-1 6/37/3	7758-02-3 38	231-830-3	Xn R-20/22,
1-phenyl-4-methyl- 4-hydroxymethyl-3-pyra	0-1 zolidone	13047-13-7	235-920-3	Xn R-48/22
diethylentriamine pentaacetic acid na5	0-1	67-43-6	200-652-8	Xi R-36
sodium sulphite	15-20	not classified		
Other information: further principal ingredient: Water				
4) first aid pecautions				
General notes:	change contaminated, wet clothing. consult a doctor.			
After skin contact:	at skin contact wash immediately with water and soap. Wash clothing before reuse.			
After eye contact: After swallowing:		At eye contact open eyelids wash with water, then immediately consult an eye specialist. Consult eye specialist at eye irritation. Rinse out mouth with water and drink a lot of water afterwards		

24 hour transportation emergency telephone number: Chemtrec 800-424-9300

5) PRECAUTIONS for fire fighting

Suitable extinguishing agents:	Coordinate extinguishing precautions on the surrounding fire.	
for security reasons unsuitable extinguishing agents:	None confessed.	
Special endangerings of	released by fire can be : carbon monoxide, carbon dioxide	
the substance or the product itself	3	
its waste products of combustion or		
arising gasses:	sulfur dioxide	
Special protection equipment	None of special equipment required.	
for fire fighting:		
Additional notes:	Product does not burn.	

6) PRECAUTIONS at unintentional release

Person drawee Precautions:	Use personal protective clothing.	
	Don't let it drain into the sewage system/surface water/ground water.	
proceedings for cleaning/binding:	liquid binding materials (e.g. sand, pebble sand sawdust, universal binding agents).	
Additional notes:	Treat the taken material according to waste management section.	

7) handling and storage

Indications for safe contact:	At proper use none of special precautions required.
Points on fire-and explosion protection:	The product is not combustible.
Requirements on storerooms and containers:	None of special requirements necessary. Keep container tightly closed.
Together storage notes: More details on	None of special precautions required.
Storage conditions: Store class:	Recommended storage temperature: 5 to 25 C LGK 12 (VCI strategy)

8) outline demarcation and personal protection equipment

Additional information about design of technical systems: No further data; see item 7.
Components with limit values that require monitoring at the workplace:
123-31-9 1,4-dihydroxybenzene (hydroquinone)
MEL
OES
Long-term value: 0.5 mg/m³
Short-term value: 4 mg/m³
Long-term value: 2 mg/m³
CHAN, ILV
Additional information: The lists that were valid during the compilation were used as basis.
Personal protective equipment
General protective and hygienic measures
The usual precautionary measures should be adhered to general rules for handling chemicals.
Keep away from foodstuffs, beverages and food.

Take off immediately all contaminated clothing

Wash hands during breaks and at the end of the work. Avoid contact with the eyes and skin. Do not eat, drink or smoke while working. · Breathing equipment: Not required. Protection of hands: Protective gloves. The protective gloves to be used must comply with the specifications of the EC directive 89/686/ EEC and the resultant standard EN 374. This recommendation applies only to the product stated in the Safety Data Sheet and supplied by us as well as to the purpose specified by us. Only use chemical-protective gloves with CE-labelling of category III. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation · Material of gloves Nitrile rubber, NBR Butyl rubber, BR Fluorocarbon rubber (Viton) Chloroprene rubber, CR Recommended thickness of the material: ≥ 0.5 mm · Penetration time of glove material Value for permeation: Level \geq 6 (480 min) The determined penetration times according to EN 374 part III are not performed under practical conditions. Therefore a maximum wearing time, which corresponds to 50% of the penetration time, is recommended.

\cdot For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable:

Synthetic gloves

Value for permeation: Level:

≥ 3 (60 min)

 \cdot Not suitable are gloves made of the following materials: Natural rubber, NR

· Eye protection: Tightly sealed safety glasses.

9) physical and chemical qualities

Form:	Liquid
Color:	colourless, clear.
Smell:	Odorless.
pH value:	11.20 (20 C)
Boiling-point/boiling area:	≥ 100 C
Melting point/glaze area:	≤ 0 C
Flaming point:	Not applicable.
Imflammatory/	Not inflammable.
Catching light temperature:	
Self flammability:	Not self-flammable
Fire promoting	Not combustible.
qualities:	
Danger of explosion:	No danger of explosion.
Vapor pression:	Remark: Corresponds to the vapor pression of water.
Density:	1.210 g/ml (20 C)
Pouring density:	Not applicable.
Solubility into water:	Mixable.
in other solvents:	No relevant data.
Distribution coefficient	No relevant data.
n-Oktanol/water:	
Dynamic viscosity:	no relevant data.

Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications. Dangerous reactions: No dangerous reactions known Dangerous products of decomposition: No dangerous decomposition products known 11) details on toxicology Toxicological tests: Acute Toxicity: Details refer to the main component hydroquinone LD 50, oral rat 320 mg/kg Specific symptoms in this Animal experiment: Irritation-/ etching effect: Skin: slightly irritating Eyes: strongly irritating Eyes: strongly irritersible damage if swallowed. Cancer producing, ancestral estate changing as well as propagation endangering: The preparation contains hydroquinone, a substance classified with category 3 producing cancer and changing ancestral estate (Category 3: Substances, giving concern because of possible carcinogenic and ancestral estate changing destate (Category 3: Substances, giving concern because of possible carcinogenic and ancestral estate changing destate (Category 3: Substances, giving concern because of possible carcinogenic and ancestral estate changing defect on the man). Other details: No further data. There are no toxicologgical data. The classification was carried out according the calculation proceedings of preparation guideline (88/379/EEC). 12) details on ecology There are no data. General notes: The product was not tested. Remarks: Does not reach by correct use into the waste water. 13) Indications for waste management	other details:	There are not further data.
Dangerous reactions: No dangerous reactions known Dangerous products of decomposition: No dangerous decomposition products known 11) details on toxicology Toxicological tests: Acute Toxicity: Details refer to the main component hydroquinone LD 50, oral rat 320 mg/kg Specific symptoms in this Animal experiment: No relevant data. Irritation-/ etching effect: Skin: Skin: slightly irritating Eyes: Sensitization: Sensitization of skin is possible. Effect after repeated or longer continuous expose: Possibility of irreversible damage if swallowed. Cancer producing, ancestral estate changing as well as propagation endangering: The preparation contains hydroquinone, a substance classified with category 3 producing cancer and changing ancestral estate (Category 3: Substances, giving concern because of possible carcinogenic and ancestral estate changing effect on the man). Other details: No further data. No relevant data. General remarks: General remarks: There are no toxicologgical data. The classification was carried out according the calculation proceedings of preparation guideline (88/379/EEC). 12) details on ecology There are no data. Remarks: Does not reach by correct use into the waste water. 13) indications for waste management	10) stability and reactivity	
Dangerous products of decomposition: No dangerous decomposition products known 11) details on toxicology Toxicological tests: Acute Toxicity: Details refer to the main component hydroquinone LD 50, oral rat 320 mg/kg Specific symptoms in this Animal experiment: No relevant data. Irritation-/ etching effect: Slin: slightly irritating Eyes: Strin: Singitzation of skin is possible. Effect after repeated or longer continuous expose: Possibility of irreversible damage if swallowed. Cancer producing, ancestral estate changing as well as propagation endangering: The preparation contains hydroquinone, a substance classified with category 3 producing cancer and changing ancestral estate Cother details: No further data. Experiences from the practice: No further data. General remarks: There are no toxicological data. The classification was carried out according the calculation proceedings of preparation guideline (88/379/EEC). 12) details on ecology There are no data. General notes: The product was not tested. Remarks: Does not reach by correct use into the waste water. 13) indications for waste management	Thermal decomposition / condition	ns to be avoided: No decomposition if used according to specifications.
11) details on toxicology Toxicological tests: Acute Toxicity: Details refer to the main component hydroquinone LD 50, oral rat 320 mg/kg Specific symptoms in this Animal experiment: No relevant data. Irritation-/ etching effect: Skin: slightly irritating Eyes: strongly irritating Eyes: strongly irritating Sensitization: Sensitization of skin is possible. Effect after repeated or longer continuous expose: Possibility of irreversible damage if swallowed. Cancer producing, ancestral estate changing as well as propagation endangering: The preparation contains hydroquinone, a substance classified with category 3: Substances, giving concern because of possible carcinogenic and ancestral estate changing effect on the man). Other details: No further data. Experiences from the practice: No relevant data. General remarks: There are no toxicologgical data. The classification was carried out according the calculation proceedings of preparation guideline (88/379/EEC). 12) details on ecology There are no data. General notes: The product was not tested. Remarks: Does not reach by correct use into the waste water. 13) indications for waste management tase main support	Dangerous reactions: No dangerou	is reactions known

Packing:	Not contaminated packings can be recycled .	
	Empty packing completely, wash well (Cleaning agent: water), can be recycled afterwards	
14) details on transport		
Transport/further details:	No dangerous goods according to transport regulations (ADR/RID IMDG code, ICAO-TI/IATA-DGR)	
15) regulations		
Identification by EC directives:	The product is classified and labeled according to EC guidelines (GefStoffVO)	
Classification letter: Danger identification: R sentences: S sentences:	Xndanger symbol:harmfulR-36 Irritating to eyes.R-40 Limited evidence of a carcinogenic effect.R-43 May cause sensitisation by skin contact.R-68 Possible risk of irreversible effects.S-2 Keep out of reach of children.S-26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.S-36/37 Wear suitable protective clothing and gloves. S-46 If swallowed seek medical advice immediately and show this container label.	
Remarks:	This classification was carried out according to the calculation method for preparations guideline (88/379/EEC).	
Technical instructions air: Water endangering class (WGK):	This TA isn't a subject. 2 (water endangering) (Classification in accordance with VwVwS, appendix 4)	

16). other details

Use: Photographic developer

Further information:

These details refer merely on this above product and not needs to be valid, if this is occurred with another product or in an arbitrary process.

The information corresponds to our today's knowledge, it is correct and complete and with best conscience, given without a guarantee, though. It shall describe our product with a view to safety requirements and has therefore not the meaning to assure of certain qualities. The responsibility of the use of this product remains on the user whether the information is complete and suitable for his special use.
