

*Epson Professional Media*

# Exhibition Fiber Paper

Combining the artistry of traditional photography with the ease and control of digital output, this unique media offers the same deep blacks, subtle tonal gradations and long-lasting results as the darkroom papers of old. Its fiber base has a rich surface, a continuous tone and soft gloss that are ideal for creating stunning color or neutral black-and-white prints that retain the look and feel of traditional fiber paper.

**Features/Benefits**

- Fiber base
- 13 mil thick
- Soft gloss
- Look and feel of traditional darkroom paper
- Instant-drying

**Technical Specifications**

**Operating Specifications**

Required temperature for optimum performance 68 ° to 77 °F  
20 ° to 25 °C

Required humidity for optimum performance 40 – 60%

Note: High humidity will prolong the drying time for lamination purposes.

Note: Actual print stability and longevity will vary according to image, display conditions, light intensity, humidity, atmospheric conditions and post-printing treatments. Epson does not guarantee stability or longevity. For maximum print life, display all prints under glass or lamination or properly store them.
