#### Trade name: COLORTEC© C-41 Colour Developer CD

P362+P364 Take off contaminated clothing and wash it before reuse.

P405Store locked up.P501Dispose of contents/com

501 Dispose of contents/container in accordance with local regulations.

. 2.3 Other hazards

. Results of PBT and vPvB assessment

. **PBT:** Not applicable.

\*

. **vPvB:** Not applicable.

## **SECTION 3: Composition/information on ingredients**

. 3.2 Chemical characterisation: Mixtures

. **Description:** Mixture: consisting of the following components.

#### . Dangerous components:

CAS: 10039-54-0 bis(hydroxylammonium) sulfate 1-5% EINECS: 233-118-8 Carc. 2, H351; STOT RE 2, H373; Met. Corr.1, H290; Aquatic Index number: 612-123-00-2 Acute 1, H400; Acute Tox. 4, H302; Acute Tox. 4, H312; Skin Irrit. 2, Reg.nr.: 01-2119485971-25 H315; Eye Irrit. 2, H319; Skin Sens. 1, H317 Additional information: For the wording of the listed hazard phrases refer to section 16.

#### **SECTION 4: First aid measures**

. 4.1 Description of first aid measures

- . General information: Immediately remove any clothing/shoes soiled by the product.
- . After inhalation:

Supply fresh air and to be sure call for a doctor.

- In case of unconsciousness place patient stably in side position for transportation.
- . After skin contact: Immediately wash with water and soap and rinse thoroughly.
- . After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- . After swallowing: Drink plenty of water and provide fresh air. Call for a doctor immediately.

. 4.2 Most important symptoms and effects, both acute and delayed

No further relevant information available.

. 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

## **SECTION 5: Firefighting measures**

5.1 Extinguishing media

. Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.

5.2 Special hazards arising from the substance or mixture

Nitrogen oxides (NOx)

Carbon monoxide (CO)

Sulphur dioxide (SO2)

Under certain fire conditions, traces of other toxic gases cannot be excluded.

- **5.3 Advice for firefighters**
- Protective equipment: Do not inhale explosion gases or combustion gases.

## **SECTION 6: Accidental release measures**

. **6.1 Personal precautions, protective equipment and emergency procedures** Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation

6.2 Environmental precautions:

Dilute with plenty of water.

(Contd. on page 3)

Printing date 03.03.2020

version no: 3

Revision: 03.03.2020

(Contd. of page 2)

#### Trade name: COLORTEC© C-41 Colour Developer CD

Do not allow to enter sewers/ surface or ground water.

. 6.3 Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13. Ensure adequate ventilation. 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information. **SECTION 7: Handling and storage** . 7.1 Precautions for safe handling Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols. . Information about fire - and explosion protection: No special measures required. . 7.2 Conditions for safe storage, including any incompatibilities . Storage: . Requirements to be met by storerooms and receptacles: Store only in the original receptacle. . Information about storage in one common storage facility: Store away from foodstuffs. Store away from oxidising agents. Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles. Protect from heat and direct sunlight. Protect from exposure to the light.

Store under lock and key and out of the reach of children.

Recommended storage temperature: 5-30°C

7.3 Specific end use(s) No further relevant information available.

#### **SECTION 8: Exposure controls/personal protection**

. Additional information about design of technical facilities: No further data; see item 7.

#### . 8.1 Control parameters

. Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

- . Additional information: The lists valid during the making were used as basis.
- . 8.2 Exposure controls
- . Personal protective equipment:
- . General protective and hygienic measures:
- The usual precautionary measures are to be adhered to when handling chemicals.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

. **Respiratory protection:** Not necessary if room is well-ventilated.

No personal respiratory protection required. In case of insufficient ventilation, excess of workplace limits, excessive odor or dusts, fibers and fumes, use self-contained breathing apparatus or breathing apparatus with filter type P2 or P3 according to EN 143.

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

Ensure adequate ventilation

#### **SECTION 10: Stability and reactivity**

. 10.1 Reactivity No further relevant information available.

- . 10.2 Chemical stability
- . Thermal decomposition / conditions to be avoided: Stable at environment temperature.
- . 10.3 Possibility of hazardous reactions Reacts with acids, alkalis and oxidising agents.
- . 10.4 Conditions to avoid No further relevant information available.
- . 10.5 Incompatible materials: Under certain fire conditions, traces of other toxic gases cannot be excluded.
- 10.6 Hazardous decomposition products:

Irritant gases/vapours

Carbon monoxide and carbon dioxide

## **SECTION 11: Toxicological information**

. 11.1 Information on toxicological effects

- . Acute toxicity Based on available data, the classification criteria are not met.
- . LD/LC50 values relevant for classification:

#### 10039-54-0 bis(hydroxylammonium) sulfate

Oral LD50 642-842 mg/kg (rat)

Dermal LD50 1,500-2,000 mg/kg (rabbit)

- Primary irritant effect:
- . Skin corrosion/irritation Based on available data, the classification criteria are not met.
- . Serious eye damage/irritation Based on available data, the classification criteria are not met.
- . Respiratory or skin sensitisation
- May cause an allergic skin reaction.
- Acute effects (acute toxicity, irritation and corrosivity)
- The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:
- Irritant
- . CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- . Germ cell mutagenicity Based on available data, the classification criteria are not met.
- . Carcinogenicity
- Suspected of causing cancer.

(Contd. on page 6)

Printing date 03.03.2020

version no: 3

Revision: 03.03.2020

#### Trade name: COLORTEC© C-41 Colour Developer CD

(Contd. of page 5)

- . Reproductive toxicity Based on available data, the classification criteria are not met.
- . STOT-single exposure Based on available data, the classification criteria are not met.
- . STOT-repeated exposure Based on available data, the classification criteria are not met.
- . Aspiration hazard Based on available data, the classification criteria are not met.

#### **SECTION 12: Ecological information**

- . 12.1 Toxicity
- . Aquatic toxicity:

#### 10039-54-0 bis(hydroxylammonium) sulfate

EC50 48 mg/l (daphnia magna (Water flea))

- LC50 96 mg/l (fathead minnow (Pimephales promelas))
- . 12.2 Persistence and degradability No further relevant information available.
- . 12.3 Bioaccumulative potential No further relevant information available.
- . 12.4 Mobility in soil No further relevant information available.
- . Additional ecological information:
- . General notes:
- Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water Do not allow product to reach ground water, water course or sewage system.
- Danger to drinking water if even small quantities leak into the ground.
- . 12.5 Results of PBT and vPvB assessment
- . **PBT:** Not applicable.
- . vPvB: Not applicable.
- . 12.6 Other adverse effects No further relevant information available.

#### **SECTION 13: Disposal considerations**

- . 13.1 Waste treatment methods
- . Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. **European waste catalogue** 

09 01 01 water-based developer and activator solutions

- . Uncleaned packaging:
- . Recommendation:

Dispose of packaging according to regulations on the disposal of packagings.

Disposal must be made according to official regulations.

. Recommended cleansing agents: Water, if necessary together with cleansing agents.

#### . Dangerous components:

CAS: 584-08-7potassium carbonate10-<25%</th>EINECS: 209-529-3(1) Skin Irrit. 2, H315; Eye Irrit. 2, H319; STOT SE 3, H33510-<25%</td>Reg.nr.: 01-2119532646-36(1) Skin Irrit. 2, H315; Eye Irrit. 2, H319; STOT SE 3, H33510-<25%</td>CAS: 140-01-2Diethylenetriaminepentaacetic acid, pentasodium salt (DTPA-Na5)1-5%EINECS: 205-391-3(2) STOT RE 2, H373; (1) Acute Tox. 4, H3321-5%Reg.nr.: 01-2119474445-33.Additional information: For the wording of the listed hazard phrases refer to section 16.

#### **SECTION 4: First aid measures**

. 4.1 Description of first aid measures

. General information: Immediately remove any clothing/shoes soiled by the product.

- . After skin contact: Immediately rinse with water.
- . After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.

. After swallowing: If symptoms persist consult doctor.

. 4.2 Most important symptoms and effects, both acute and delayed

No further relevant information available.

. 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

## **SECTION 5: Firefighting measures**

- . Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- . 5.2 Special hazards arising from the substance or mixture
- Nitrogen oxides (NOx)

Carbon monoxide (CO)

Sulphur dioxide (SO2)

- . 5.3 Advice for firefighters
- . Protective equipment: No special measures required.

#### **SECTION 6: Accidental release measures**

. 6.1 Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation

- . 6.2 Environmental precautions:
- Dilute with plenty of water.

Do not allow to enter sewers/ surface or ground water.

. 6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

(Contd. on page 3)

Printing date 03.03.2020

version no: 10

Revision: 03.03.2020

#### Trade name: COLORTEC© C-41 Coulor Developer CD-Part 3

See Section 13 for disposal information.

#### **SECTION 7: Handling and storage**

. 7.1 Precautions for safe handling Ensure good ventilation/exhaustion at the workplace.

. Information about fire - and explosion protection: No special measures required.

#### . 7.2 Conditions for safe storage, including any incompatibilities

- . Storage:
- . Requirements to be met by storerooms and receptacles: Store only in the original receptacle. . Information about storage in one common storage facility:
- Store away from foodstuffs.
- Store away from oxidising agents.
- Further information about storage conditions:
- Protect from heat and direct sunlight.
- Protect from exposure to the light.

Store under lock and key and out of the reach of children.

- Recommended storage temperature: 5-30°C
- . 7.3 Specific end use(s) No further relevant information available.

#### **SECTION 8: Exposure controls/personal protection**

. Additional information about design of technical facilities: No further data; see item 7.

#### . 8.1 Control parameters

#### . Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

. Additional information: The lists valid during the making were used as basis.

#### . 8.2 Exposure controls

- . Personal protective equipment:
- . General protective and hygienic measures:

The usual precautionary measures are to be adhered to when handling chemicals.

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

. Respiratory protection: Ensure adequate ventilation

#### . Protection of hands:

Impervious gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation . **Material of gloves** 

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Butyl rubber, BR Nitrile rubber, NBR

Neoprene gloves

#### . Penetration time of glove material

Gove material	breakthroug-time	layer thickness
Butyl rubber:	≥480 min	≥0,4mm
Nitrile rubber:	≥480 min	≥0,38mm
Neoprene:	≥240 min	≥0,65mm

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

Irritant gases/vapours

Carbon monoxide and carbon dioxide

## **SECTION 11: Toxicological information**

. 11.1 Information on toxicological effects

- . Acute toxicity Based on available data, the classification criteria are not met.
- . LD/LC50 values relevant for classification:
- 584-08-7 potassium carbonate

Oral LD50 >2,000 mg/kg (rat)

#### 140-01-2 Diethylenetriaminepentaacetic acid, pentasodium salt (DTPA-Na5)

Oral LD50 >2,000 mg/kg (rat)

Primary irritant effect:

- Skin corrosion/irritation
- Causes skin irritation.
- . Serious eye damage/irritation
- Causes serious eye irritation.
- . Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- . CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- . Germ cell mutagenicity Based on available data, the classification criteria are not met.
- . Carcinogenicity Based on available data, the classification criteria are not met.
- . Reproductive toxicity Based on available data, the classification criteria are not met.
- . STOT-single exposure Based on available data, the classification criteria are not met.
- . STOT-repeated exposure Based on available data, the classification criteria are not met.
- . Aspiration hazard Based on available data, the classification criteria are not met.

## **SECTION 12: Ecological information**

- . 12.1 Toxicity
- . Aquatic toxicity:

#### 140-01-2 Diethylenetriaminepentaacetic acid, pentasodium salt (DTPA-Na5)

EC50 48 mg/l (daphnia magna (Water flea))

48 mg/l (Invertebrates)

LC50 96 mg/l (fish)

96 mg/l (Lepomis macrochirus (Sonnenbarsch))

- . 12.2 Persistence and degradability No further relevant information available.
- . 12.3 Bioaccumulative potential No further relevant information available.
- . **12.4 Mobility in soil** No further relevant information available.
- Additional ecological information:
- . General notes:

Do not allow product to reach ground water, water course or sewage system.

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

- . 12.5 Results of PBT and vPvB assessment
- . **PBT:** Not applicable.
- . vPvB: Not applicable.
- . 12.6 Other adverse effects No further relevant information available.

#### Trade name: COLORTEC© C-41/ E6 Bleach Fix BX Part 2

		(Contd. of page 3)
Water:	25-50 %	
Solids content: . 9.2 Other information	0.0 % No further relevant information available.	

## **SECTION 10: Stability and reactivity**

. 10.1 Reactivity No further relevant information available.

. 10.2 Chemical stability

. Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

- . 10.3 Possibility of hazardous reactions No dangerous reactions known.
- . 10.4 Conditions to avoid No further relevant information available.
- . 10.5 Incompatible materials: No further relevant information available.
- . 10.6 Hazardous decomposition products: Irritant gases/vapours

#### **SECTION 11: Toxicological information**

. 11.1 Information on toxicological effects

- . Acute toxicity Based on available data, the classification criteria are not met.
- . LD/LC50 values relevant for classification:

7631-90-5 sodium bisulphite

Oral LD50 1540 mg/kg (rat)

- Primary irritant effect:
- . Skin corrosion/irritation Based on available data, the classification criteria are not met.

. Serious eye damage/irritation Based on available data, the classification criteria are not met.

- . Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- . CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- . Germ cell mutagenicity Based on available data, the classification criteria are not met.
- . Carcinogenicity Based on available data, the classification criteria are not met.
- . Reproductive toxicity Based on available data, the classification criteria are not met.
- . STOT-single exposure Based on available data, the classification criteria are not met.
- . STOT-repeated exposure Based on available data, the classification criteria are not met.
- . Aspiration hazard Based on available data, the classification criteria are not met.

#### **SECTION 12: Ecological information**

. 12.1 Toxicity

- . Aquatic toxicity: No further relevant information available.
- . 12.2 Persistence and degradability No further relevant information available.
- . 12.3 Bioaccumulative potential No further relevant information available.
- . 12.4 Mobility in soil No further relevant information available.
- . Additional ecological information:
- . General notes:

Do not allow product to reach ground water, water course or sewage system.

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

- . 12.5 Results of PBT and vPvB assessment
- . **PBT:** Not applicable.
- . **vPvB:** Not applicable.
- . 12.6 Other adverse effects No further relevant information available.

#### **SECTION 13: Disposal considerations**

#### . 13.1 Waste treatment methods

- . Recommendation
- Must not be disposed together with household garbage. Do not allow product to reach sewage system. **European waste catalogue**
- 09 01 05 bleach solutions and bleach fixer solutions
- . Uncleaned packaging:
- . Recommendation: Disposal must be made according to official regulations.
- . Recommended cleansing agents: Water, if necessary together with cleansing agents.

SECTION 14: Transport informa	ation	
. 14.1 UN-Number . ADR, ADN, IMDG, IATA	Void	
. 14.2 UN proper shipping name . ADR, ADN, IMDG, IATA	Void	
. 14.3 Transport hazard class(es)		
. ADR, ADN, IMDG, IATA . Class	Void	
. 14.4 Packing group . ADR, IMDG, IATA	Void	
. 14.5 Environmental hazards: . Marine pollutant:	No	
. 14.6 Special precautions for user	Not applicable.	
. 14.7 Transport in bulk according to Ann Marpol and the IBC Code	nex II of Not applicable.	
. UN "Model Regulation":	Void	

#### **SECTION 15: Regulatory information**

. 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

- . REGULATION (EC) No 1907/2006 ANNEX XVII Conditions of restriction: 65
- . 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

#### **SECTION 16: Other information**

#### **SECTION 4: First aid measures**

- . 4.1 Description of first aid measures
- . General information: Take affected persons out into the fresh air.
- . After inhalation:
- Supply fresh air; consult doctor in case of complaints.
- Supply fresh air.
- . After skin contact: Immediately rinse with water.
- . After eye contact: Rinse opened eye for several (15 min) under running water.
- . After swallowing: Rinse out mouth and then drink plenty of water.
- . 4.2 Most important symptoms and effects, both acute and delayed
- No further relevant information available.
- . 4.3 Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

#### **SECTION 5: Firefighting measures**

. 5.1 Extinguishing media

- . Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.
- . 5.2 Special hazards arising from the substance or mixture No further relevant information available.
- . 5.3 Advice for firefighters
- . Protective equipment: No special measures required.

#### **SECTION 6: Accidental release measures**

. 6.1 Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation

. 6.2 Environmental precautions:

Dilute with plenty of water.

Do not allow to enter sewers/ surface or ground water.

. 6.3 Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

- . 6.4 Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

#### **SECTION 7: Handling and storage**

- . 7.1 Precautions for safe handling No special measures required.
- . Information about fire and explosion protection: No special measures required.
- . 7.2 Conditions for safe storage, including any incompatibilities
- . Storage:
- . Requirements to be met by storerooms and receptacles: No special requirements.
- . Information about storage in one common storage facility: Store away from foodstuffs.
- . Further information about storage conditions:
- Protect from heat and direct sunlight.

Store under lock and key and with access restricted to technical experts or their assistants only. Store under lock and key and out of the reach of children.

- Recommended storage temperature: 5-30°C
- . 7.3 Specific end use(s) No further relevant information available.

#### **SECTION 10: Stability and reactivity**

- . 10.1 Reactivity No further relevant information available.
- . 10.2 Chemical stability
- . Thermal decomposition / conditions to be avoided: Stable at environment temperature.
- . 10.3 Possibility of hazardous reactions No dangerous reactions known.
- . 10.4 Conditions to avoid No further relevant information available.
- . 10.5 Incompatible materials: No further relevant information available.
- . 10.6 Hazardous decomposition products: Carbon monoxide and carbon dioxide

#### **SECTION 11: Toxicological information**

- . 11.1 Information on toxicological effects
- . Acute toxicity Based on available data, the classification criteria are not met.
- . Primary irritant effect:
- . Skin corrosion/irritation Based on available data, the classification criteria are not met.
- . Serious eye damage/irritation Based on available data, the classification criteria are not met.
- . Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- . Acute effects (acute toxicity, irritation and corrosivity)
- When used and handled according to specifications, the product does not have any harmful effects to our experience and the information provided to us.
- The substance is not subject to classification according to the latest version of the EU lists.
- . CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- . Germ cell mutagenicity Based on available data, the classification criteria are not met.
- . Carcinogenicity Based on available data, the classification criteria are not met.
- . Reproductive toxicity Based on available data, the classification criteria are not met.
- . STOT-single exposure Based on available data, the classification criteria are not met.
