1.2. NFR (Not For Resale): Software for resellers for demonstrating, supporting and testing only.
1.3. Demo version: Software for time limited evaluation purposes.
1.4. Beta version: Pre-released software version for testing purposes only.

2. License
basICColor GmbH is the licensor. If there is a subsidiary company in the country where the software was obtained the subsidiary company is the licensor. The licensor hereby permits the use of the attached software including all documentation (hereinafter "Software") regardless on what storage device the software is saved. Transfer of ownership is for the storage device only. basICColor and/or the licensors of basICColor keep ownership and all other rights on the software. All rights to use the software and copies thereof are subject to this agreement.

3. Terms and Restrictions
The licensor hereby grants permission to install and use the software in your work environment. You are entitled to use the software on one computer per obtained license. You are entitled to save a machine readable copy for back-up purposes only. You are obliged to include all authors and all copyrights if a copy is made. You are not allowed to:
3.1. decompile, reverse engineer, disassemble or change the software in any other way
3.2. modify, change, this software or create new software that is based on this software or parts thereof
3.3. sell the software after it has been installed and unlocked on one of your computers, or let another party use the software in any way
3.4. transfer the software via a network to another computer outside your work environment
3.5. install and use the software on several computers and virturell machines
3.6. save and use the software on further systems to consult outside your work environment.

THE basICColor SOFTWARE IS NOT INTENDED FOR USE IN THE OPERATION OF NUCLEAR FACILITIES, AIRCRAFT NAVIGATION OR COMMUNICATION SYSTEMS, AIR TRAFFIC CONTROL SYSTEMS, LIFE SUPPORT MACHINES OR OTHER EQUIPMENT IN WHICH THE FAIlURE OF THE basICColor SOFTWARE COULD LEAD TO DEATH, PERSONAL INJURY, OR SEVERE PHYSICAL OR ENVIRONMENTAL DAMAGE.

When you do not follow these restrictions you are no longer allowed to use the software even when the licensor has not terminated the contract.

4. Derived products
4.1. basICColor ICC-profiles for printers, printing machines, scanners and digital cameras.
Profiles created with basICColor are subject to this license agreement. The profiles may be used on all computers or devices of the licensee. The profiles can not be passed on to a third party to archive a greater value, a better use or to increase the attractivity of a product of the licensee. In this case a separate agreement has to be made with basICColor. Profiles created as a service need a separate agreement also - regardless whether the service is free of charge or not. Profiles imbedded in graphics, picture data or PDF documents may be passed on if the production process requires it. (ie. photographer

to prepress company or pre-press to printer). Any further commercial use requires a separate agreement with basICColor. It is not allowed to pass on profiles that have been created with Beta-, Demo-, or NFR versions of the software.

4.2. basICColor ICC-monitor profiles
To be entitled to use monitor calibrations and profiles
4.2.1. the user has to hold a valid license for each computer and each basICColor program.
4.2.2. service providers can obtain a special service version of basICColor display. With this version basICColor allows the service providers to calibrate and profile customer computers that do not hold a valid license
4.2.3. Passing on profiles that have been created with Beta-, Demo-, or NFR versions is not allowed under any circumstances.

4.3. basICColor ICC-DeviceLinks
DeviceLinks created with basICColor software are subject to this license agreement. DeviceLinks may be used on all computers and devices of the licensee. The DeviceLinks can not be passed on to a third party to archive a greater value, a better use or to increase the attractivity of a product of the licensee. In this case a separate agreement with basICColor is needed. The creation of DeviceLinks with basICColor software is allowed if the following requirements are met:
4.3.1. The profiling service provider holds a purchased license of basICColor Devil and credits the agreed license fees to basICColor GmbH.
4.3.2. DeviceLinks that have been created with a Demo version of basICColor Devil are sent to basICColor GmbH regardless of their use. Once the additional license fee has been paid basICColor will unlock the links.
4.3.3. Alternatively a volume license of basICColor Devil can be obtained that allows an unlimited transfer of DeviceLinks.
4.3.4. For passing on DeviceLinks it is binding to hold a software maintenance contract of basICColor Devil.
4.3.5. It is not allowed to pass on DeviceLinks that have been created with the Beta version of the software.

4.4. basICColor measurement data
Measurement data that has been created with basICColor catch and/or has been optimized with basICColor IMProve are subject to this license agreement. Data created with basICColor catch or data optimized with basICColor IMProve may be used on all computers and devices of the licensee. This data can not be passed on to a third party to archive a greater value, a better use or to increase the attractivity of a product of the licensee. In this case a separate agreement with basICColor is required.The optimizing of data with basICColor IMProve as a service is only allowed in combination with a purchased service-license. It is not allowed to create and/or optimize measurement data with the use of the Beta-,Demo-, or NFR versions of the software.

5. Warranty
Errors in Software cannot be ruled out. The licensor warrants in accordance with the legal regulations only. The statute of limitations is 6 months starting on the delivery date of the software. The licensor is at liberty to warrant repair or replacement. If repair or replacement are not satisfactory the licensee can request to lower the license fee or to terminate the contract. Software that has been changed, extended or damaged is not under warranty unless it can be proven that the change, extension, or damage is not responsible for the error.

6. Damage liability
A contractual or non-contractual liability for damages on the part of licensor and its employees and agents shall only exist if the damage is due to gross negligence or intent. A further compelling legal liability

remains unaffected. The licensor's liability is limited to the pecuniary loss which he ought to have foreseen, unless the damage is due to gross negligence on the part of an organ or a senior employee of the licensor or by intent upon conclusion of the contract as a possible consequence of the breach. There is no liability for the loss of data unless it could not have been avoided by the use of frequent backup of data in machine readable form as it is common in daily commercial transactions. Furthermore there is no liability for damages caused by malfunctioning software that could have been avoided by frequent and timely checks. Liability claims expire with the legal regulations or after two years beginning at the delivery date with the exception of claims from the Product Liability Act.

7. Export
You may not use or otherwise export or re-export the basICColor Software except as authorized by the laws of the jurisdiction in which the basICColor Software was obtained.

8. Governing Law and Severability
If basICColor GmbH has a subsidiary company in the country where the software was obtained the licensing agreement is governed by the laws of this country. Otherwise this license agreement is governed by the laws of Germany.

9. Completeness
This license agreement constitutes the entire agreement between the parties with respect to the license and supersedes all prior oral or written agreements. Changes and additions to this contract must be in writing. Any translation of this License is done for local requirements and the German version of this License shall govern.
