

NINE-IN-ONE REFLECTOR KIT

The **Savage 9-in-1 Reflector Kit** is conveniently versatile - ideal for field or studio sessions providing superior control over ambient and studio lighting. Diffuse sunlight and harsh light; warm and soften light sources with ease.

The 43" reflector disc is suitable for large portraits, and still-life setups. Chroma green and blue panels are often used as a green-screen background for headshots. An 18% gray reflector for manual color balancing is also included. Disks collapse into a convenient carry bag for compact storage.
